Capabilities Statement

Founded in 2005, Lodestone LLC is a USA company providing superior Power Conditioning and Surge Protection products to Government, Military, Industrial, Medical, Aerospace, Retail and Consumer applications under the dba Bantam Clean Power.

By Improving Power Efficiency, Bantam Technology can Reduce Power Consumption from 5 to 15% depending on the application.

The patented circuit at the heart of Bantam Technology has a 20 year replacement warranty with a Mean Time To Failure (MTTF) of over 30 years. All Bantam ever sold over 15 years have a less than 1 failure in every 10,000 units sold.

Industry Leading Performance

- **Instantaneous Surge Protection:**
Less than 1% of Surge Energy reaches the protected device, no other product performs better.
- **EMI and RFI Filtering from 100Hz to >1Ghz:**
Up to 60dB reduction on Line, Neutral & Ground.
- **Harmonic Attenuation:**
40% reduction of odd Current Harmonics.
- **Power Factor Correction:**
Up to 30% improvement..
- **Stable Ground Reference:**
Filters ground, does not dump transients to ground.
- **Power Line Exploitation (PLE) Protection:**
Eliminates hacking on all electrical paths.

**Patented Technology that Protects
Line, Neutral and Ground**

Protection from Power Line Exploitation

The ideal Power Conditioner and Surge Protector for Protecting Critical Data. Absorbs surges, transients, PLE, EMI & RFI frequencies and reduces harmonic distortion. The Patented Circuit is a Bi-directional filter of Line, Neutral & Ground, so devices sharing a common power source do not share surges, transients, and harmonics.
